DEPARTMENT OF BANKING AND INSURANCE

# The Commonwealth of Massachusetts

OFFICE OF THE COMMISSIONER OF BANKS,  
STATE HOUSE, BOSTON, JANUARY 15, 1936.

*To the Honorable Senate and House of Representatives of the Commonwealth of  
Massachusetts in General Court Assembled:*

I have the honor to submit to the General Court, as required by General Laws (Ter. Ed.), Chapter 167, section 9, the annual report of this department for the year 1935. The complete report covering the work of the department and containing statistics and statements of the institutions under its supervision will be submitted in accordance with the provisions of said Section 9.

It is recognized that developments in the banking business fairly accurately reflect the general trend of business as a whole. Deposits in all Massachusetts State banks increased nearly \$100,000,000 during the past year. General business conditions during the past year have improved very materially. Dow Jones average bond prices show an increase from 93.16 per cent in October, 1934, to 96.14 per cent in October, 1935, and during that period industrial stock averages have likewise advanced from 93.46 per cent to 139.74 per cent. In that period there has been a noticeable increase in industrial activity upon a profitable basis. This is illustrated clearly in information taken from the Associated Press Index of industrial activity which uses statistics as of the week of November 9, as follows: —

	Week of Nov. 9, 1935.	Same Week 1934.
Composite index . . . . .	81.4	62.0
Automobile production . . . . .	87.6	36.3
Steel mill activity . . . . .	68.3	33.5
Cotton manufacturing activity . . . . .	96.7	91.2
Electric power production . . . . .	102.2	93.3
Residential building . . . . .	41.7	18.4
Total car loadings . . . . .	67.1	60.3

The foregoing improvements in general business conditions have, of course, been reflected in the financial worth of banks. Securities held by banks have appreciated in value, collateral loans have benefited materially, and the value of real estate securing mortgages has appreciated substantially, so that as a general proposition the actual market value of the assets of our banks has improved considerably. Bank deposits have shown a decided increase throughout the country. Money rates during the past year have remained unusually low. The policy of lowered interest rates upon real estate mortgages has continued. Where the customary rate of interest on mortgages covering owner-occupied home properties has heretofore been 6 per cent, the prevailing rate is now 5½ per cent. Because of advantageous money rates which have been available during the past year, a large number of business corporations have found it advisable to refinance their long-term obligations by new bond issues at lower rates of interest.

As reflected in the general condition of mortgages held by banks, there is every indication that the real estate market has been improving encouragingly in this Commonwealth. Statistics obtained from the State Department of Labor and Industries, Division of Statistics, show an aggregate of permits issued for new buildings amounting to \$21,064,198 for the period October, 1934, to October, 1935, as compared with an aggregate of \$19,054,869 for the corresponding previous twelve months' period, representing an increase of 10.54 per cent. Rentals appear to have been stabilized to a considerable degree and there has been a substantial

increase of tenancies. Mortgages are being replaced at lower interest rates. With the growing increase in real estate values, it is expected that there will be a replacement of a great number of mortgages, as well as a program of new construction. Here it may be of interest to note that our state banking institutions have approximately \$350,000,000 available for desirable mortgage loans.

The prevailing policy of lowered mortgage interest rates necessarily tends toward decreasing the earning power of our banking institutions which hold real estate mortgages as a substantial portion of their investments. This is reflected in the inevitable corresponding constant decline in the rate of interest and dividends paid to depositors. The earning power of banks may be reduced further for a relatively short period if the improvement in the real estate market and a continued increase in values bring about any noticeable program of mortgage replacement.

Massachusetts has always been one of the leaders among the states of this country in banking, insurance, social service, and numerous constructive forms of government of benefit to its citizens; the structure of its banking system which has been in existence for over one hundred years has been proven sound and has successfully stood the test of panics and general depressions. State banks in Massachusetts have, exclusive of trust departments, deposits of \$3,000,000,000, compared with deposits of \$1,288,000,000 in 129 national banks in Massachusetts.

It seems to me to be pertinent to call to the attention of the General Court that, of the 805 banking institutions under the supervision of this department, all excepting 76 are mutual institutions. These mutual institutions are operated solely for the benefit of depositors or shareholders. The deposits in these 729 mutual institutions aggregate \$2,525,096,000 while the deposits in the remaining 76 non-mutual state banking institutions aggregate \$487,949,000. Our mutual institutions have made possible the owning of homes by hundreds of thousands of our citizens and have been directly responsible for the prosperity of many of our communities. In the past two years, these mutual institutions have greatly lessened the financial burdens of their local communities by the payment of taxes upon mortgaged properties which otherwise might go into serious default and the amount of taxes so advanced or paid to these various communities in that length of time amounts to more than \$20,000,000.

I believe that the people of this Commonwealth fully realize the stability of our banking structure. With our total population at the present time of approximately 4,000,000, there are well over 3,000,000 depositors in Massachusetts banking institutions. The benefits which depositors in our state banking institutions have received in the payment of dividends have been substantial and the treatment and consideration that has been accorded to borrowers has been excellent. Our mutual savings banks alone have paid in dividends to depositors during the last sixty years a total of approximately \$1,000,000,000, and in the last ten years savings banks alone have paid to the Commonwealth for deposit taxes an amount totaling in excess of \$23,000,000.

Any legislation that is contemplated regarding our banking structure or system should be carefully considered by the General Court and any legislation which is enacted should be for the benefit of our state banking structure as a whole and designed to encourage its existence.

The following abstract is submitted for your consideration.

#### GENERAL LEGISLATION ENACTED.

Chap. 4. An Act extending the period of operation of certain laws authorizing domestic corporations to contribute to certain funds for the betterment of social and economic conditions.

Chap. 162. An Act authorizing banking institutions and insurance companies to make loans insured under the provisions of the National Housing Act.

Chap. 452. An Act to provide for the authorization and supervision of banking companies.

Chap. 55. Resolve providing for an investigation and study by a special commission relative to certain practices in connection with foreclosure of real estate mortgages and relative to the limitation of actions on certain promissory notes.

#### TRUST COMPANIES.

The last reports received from the seventy-six trust companies as of November 1, 1935, showed a substantial increase over the previous year in the aggregate resources of all departments. The resources of the Commercial Departments increased approximately \$73,000,000 and those of the Savings Departments, approximately \$13,000,000. The Trust Departments showed total assets exceeding \$1,000,000,000, indicating an increase of approximately \$52,000,000.

Under date of January 2, 1935, four trust companies; namely, Boulevard Trust Company, Brookline, Canton Trust Company, Needham Trust Company, Stoughton Trust Company, and two national banks; namely, Dedham National Bank of Dedham and National Mount Wollaston Bank, Quincy, were converted into the Norfolk County Trust Company, Brookline, a newly organized company.

## BANKS IN POSSESSION OF THE COMMISSIONER.

No banks were taken into the possession of the Commissioner of Banks during the year 1935. Nineteen banks taken into possession or for which conservators were appointed during the period from 1931 to 1933 are still in possession and in process of liquidation. The names and locations of said nineteen banks, the respective dates on which possession was taken and the percentages and amounts released to depositors during the year 1935, as well as during the entire period since the year 1931, appear on the following page.

The total cash releases made by these nineteen banks, together with releases provided by five other banks formerly in possession and reorganized during the period from 1932 to 1935, aggregate \$67,000,000 of the \$108,000,000 of deposits in all the banks closed from 1931 to date, in addition to distribution of stock in several instances. This aggregate includes the payment in full of 98,600 depositors out of the total of 349,400 depositors in all such banks.

## PROGRESS OF LIQUIDATION.

Pursuant to the provisions of General Laws (Ter. Ed.), Chapter 167, Section 35B (Chapter 241 of the Acts of 1934), reports with respect to each bank in possession, containing in each case a statement of its receipts and expenditures and a general report as to the progress of its liquidation, including an estimate of the liquidating value of its remaining assets and liabilities appropriately classified, have been issued at six-month intervals and made available to depositors and stockholders.

## RELEASES

A consolidated analysis of figures stated in detail in these reports shows that since 1931 gross income received exceeds gross liquidation and administration expenses, including payments upon secured borrowings for dividend purposes, by almost two million dollars and this does not take into consideration the increase in value of real estate and securities held by closed banks.

To date all of the dividends that the assets of the various banks would warrant have been paid to depositors and funds have been obtained for dividend purposes from banks and from the Reconstruction Finance Corporation in as large amounts as obtainable and whenever possible. It has not been possible to pay substantial dividends in the commercial departments by reason of the fact that the assets thereof are generally of a more slow and doubtful character than the assets of the savings departments and in addition thereto, difficulty is encountered in paying dividends generally to depositors of commercial departments because of the legal requirement that depositors of savings departments are entitled to participate pro rata with depositors of commercial departments in the assets of commercial departments to the extent of any balances of savings department deposits ultimately remaining unpaid.

During the year 1935 trial was given to the policy of selling by public auction, subject to the approval of the Commissioner of Banks and the Supreme Judicial Court, of selected parcels of real estate held by the various closed banks. In addition to effectuating many sales by this medium, through the attendant public advertising, there appeared a definite general arousing of interest by prospective purchasers in other parcels of real estate of the closed banks.

During 1935 the general surveys of the insurance and bonding requirements of all closed banks which had been in progress for some time, were completed. As a result a general revision of these requirements was made possible, coverages were reduced, advantageous substitutions were made and schedule policies obtained, resulting in a gross premium saving for all closed banks for three years of approximately \$100,000.

## SUMMARY OF OPERATIONS.

The growing improvement in general business conditions and the attendant appreciation in market values of securities and real estate and the availability of mortgage money has been reflected in increased liquidation activity. To indicate this activity and to show in concise form the increasing trend, the following brief summary should be material.

*Central Organization.*

In the annual reports for the years 1935 and 1934 there was set forth in detail information regarding the Central Organization established in the Banking Department in June, 1932, for the supervision and administration of closed banks. As liquidation has progressed there has been a steady increase in the duties and obligations of the Central Organization. The personnel of the Central Organization now consists of a Supervising Agent, a Special Liquidation Counsel, five assistants, fourteen auditors, five clerks, three real estate assistants and seven stenographers.

Audits of the banks in possession have been made periodically by the liquidation auditors and accounts based thereon prepared and filed with the Supreme Judicial Court.

The State Auditor duly conducted an audit of the financial affairs of the Central Organization for the year ending December 31, 1934, at the request of the Commissioner of Banks and accounts based thereon have been duly approved by the Supreme Judicial Court.

*Legal Matters*

During the year 1935, in administering the legal affairs of banks in possession it has been the policy wherever possible to have legal work handled by attorneys employed upon a salary basis rather than on a fee basis.

## DEPOSITS WITH OTHERS THAN BANKS

## (Private Bankers, So-Called)

As stated in previous reports, the business of receiving deposits for safekeeping by private bankers, so-called, having been discontinued, the only activity by these institutions, now supervised by this department, is the transmission of monies to foreign countries. During the period from October 31, 1934, to October 1, 1935, the volume of such foreign transmissions was approximately \$432,780. This volume has been decreasing constantly from year to year, as shown by the decrease of \$282,902 in volume for the year preceding October 1, 1934, and a still further decrease of \$131,032 for the year ending October 31, 1935.

On January 22, 1935, the license of Laraia & Ermilio, a firm having its usual place of business at 157 Shrewsbury Street, Worcester, expired thus reducing to five the number of persons and corporations conducting this class of business under the supervision of this department. The customers of these bankers are protected by surety or collateral bonds held by the State Treasurer. Their other assets not being under the statutory supervision of this department, are again omitted from the consolidated statement appearing in this report.

## PRIVATE BANKS IN RECEIVERSHIP.

There now remain four private bankers, so-called, in receivership under decree of the Supreme Judicial Court, pursuant to General Laws, Chapter 169. It is pointed out that the method of liquidation of these institutions essentially differs from the possession and liquidation of state banking corporations, the latter being governed by General Laws, Chapter 167.

A summary of the status of each of the four remaining private bankers in receivership is as follows:

*M. Berardini, Bankers, of Boston.*

On December 10, 1935, a dividend of 5 per cent, representing the disbursement of \$35,051.93, was paid to all outstanding creditors. The total amount of dividends paid to date is \$617,296.09, which represents percentage payments of 67 percent to so-called Transmission Depositors, 61½ per cent to so-called Safekeeping Depositors and 45 per cent to Commercial Depositors and General Creditors. The total of all proved claims is \$1,002,867.32. In connection with the payment of the aforesaid dividend of 5 per cent on December 10, 1935, in accordance with decree of the Supreme Judicial Court, the receiver was authorized to borrow \$25,000 from a local trust company upon the receiver's collateral note. In 1935, after completing investigations and preparations, the receiver, Frank P. Fralli, of Boston, brought suit in the Supreme Court for the City and State of New York against various persons and a trust company, all of New York, to recover more than one-half million dollars which it is alleged was wrongfully diverted from M. Berardini, Bankers, of Boston. This action is now pending and numerous preliminary hearings have been had thereon.

A statement of assets and liabilities as of December 31, 1935, is as follows:

*First Bankers Union, Inc., of Boston.*

Joseph A. Greer, of Medford, is receiver of this institution under appointment by the Supreme Judicial Court. Dividends aggregating 100 per cent have been paid to transmission depositors and 20 per cent to safekeeping depositors whose claims have been duly proved and allowed. As pointed out in the last report, the only remaining asset of material value is a judgment on a fidelity bond against a surety company which was placed in the hands of a New York receiver after said judgment was obtained. Up to the end of the year 1935 the receiver has been unable to ascertain any definite information as to the prospects of dividend payments by the New York receiver or the possible amount thereof.

*Peoples Bankers, Inc., of Lawrence.*

Arthur Sweeney, of Andover, is receiver of this institution under appointment by the Supreme Judicial Court. The remaining unliquidated assets of this receivership consist principally of certain certificates of proofs of claim in a closed bank, the value of which can be determined only upon the payment of final dividends

thereof. The receiver is now negotiating with the object of effecting some agreeable settlement of the claim against the closed bank which, if consummated, should permit the closing of the receivership during the year 1936.

*Andrea Romano, of Springfield.*

Harold I. Grousbeck, of Northampton, is receiver of this institution under appointment by the Supreme Judicial Court. As appears in the last report, safekeeping depositors, so-called, and transmission depositors, so-called, have each received dividends of forty per cent. All other claims against the bank have been disposed of and the only remaining assets of the receivership consist of cash, the amount of which will permit payment of further dividends of approximately ten per cent to both safekeeping and transmission depositors, so-called. These payments will represent final dividends and have been authorized by decree of the Supreme Judicial Court recently entered. It is expected that this receivership should be closed during the year 1936.

Respectfully submitted,

HENRY H. PIERCE  
*Commissioner of Banks.*
